

## **Functions of the Mental Disabilities Board of Visitors**

### **Mental Health System**

The Board is responsible to ensure that people receiving services from mental health programs in Montana are treated humanely and that treatment is consistent with established clinical and other professional standards, and meets the requirements in state law. ([click here for statutory reference](#))

The Board does this by:

- conducting on site reviews of mental health programs
- reviewing treatment plans and the general treatment of people receiving services from mental health programs
- reviewing the use of behavioral control techniques (seclusion, restraint, time out, etc.)
- assisting individuals receiving services from mental health programs to resolve grievances
- review all plans for experimental research
- making recommendations for improvement or corrective action

### **Montana State Hospital**

In addition to the above responsibilities, the Board is responsible for providing full time legal and advocacy services to patients at Montana State Hospital.

The Board does this by doing the following:

Representing hospital patients in the following proceedings before the Montana Third Judicial District Court:

- commitment hearings ([click here for statutory reference](#))
- recommitment hearings ([click here for statutory reference](#))
- guardianship hearings ([click here for statutory reference](#))
- objections to transfer from Montana State Hospital to Montana Mental Health Nursing Care Center ([click here for statutory reference](#))
- petitions for discharge ([click here for statutory reference](#))
- *habeas corpus* petitions

Assisting and advocating for patients in the following areas:

- grievances related to patient rights violations
- hospital requests to administer medications against the wishes of patients
- consideration of privileges, discharge, conditional release, and treatment options for patients who are criminally committed
- allegations of abuse or neglect of patients
- review of treatment records

### **Montana Developmental Center**

The Board is responsible to ensure that people receiving services from the Montana Developmental Center are treated humanely and that treatment is consistent with established clinical and other professional standards, and meets the requirements in state law. ([click here for statutory reference](#))

The Board does this by:

- conducting on site reviews of the Montana Developmental Center
